From the searing heat of the Zambezi Valley to the freezing cold of the Chimanimani Mountains in Rhodesia, from the bars in Port St Johns in the Transkei to the Drakensberg Mountains in South Africa, this is the story of one man's fight against terror, and his conscience. Anyone living in Rhodesia during the 1960s and 1970s would have had a father, husband, brother or son called up in the defense of the war-torn, landlocked little country. A few of these brave men would have been members of the elite and secretive unit that struck terror into the hearts of the ZANLA and ZIPRA guerrillas infiltrating the country at that time - the Selous Scouts. These men were highly trained and disciplined, with skills to rival the SAS, Navy Seals and the US Marines, although their dress and appearance were wildly unconventional: civilian clothing with blackened, hairy faces to resemble the very people they were fighting against. Twice decorated - with the Member of the Legion of Merit (MLM) and the Military Forces' Commendation (MFC) - Andrew Balaam was a member of the Rhodesian Light Infantry and later the Selous Scouts, for a period spanning twelve years. This is his honest and insightful account of his time as a pseudo operator. His story is brutally truthful, frightening, sometimes humorous and often sad. In later years, after Rhodesia became Zimbabwe, he was involved with a number of other former Selous Scouts in the attempted coups in the Ciskei, a South African homeland, and Lesotho, an independent nation, whose only crimes were supporting the African National Congress. Training terrorists, or as they preferred to be called, 'liberation armies', to conduct a war of terror on innocent civilians, was the very thing he had spent the last ten years in Rhodesia fighting against. This is the true, untold story of these failed attempts at governmental overthrows.

A memoir from a Special Forces fighter about his experiences in the Rhodesian War and how combat has shaped his life. Andre Scheepers grew up on a farm in Rhodesia, learning about the bush from his African childhood friends, before joining the army. A quiet, introspective thinker, Andre started out as a trooper in the SAS before being commissioned into the Rhodesian Light Infantry Commandos, where he was engaged in fireforce combat operations. He then rejoined the SAS. Wounded thirteen times, his operational record is exceptional, even by the tough standards that existed at the time. He emerged as the SAS officer par excellence—beloved by his men, displaying extraordinary calm, courage, and audacious cunning during a host of extremely dangerous operations. Here, Andre writes vividly about his experiences, his emotions, and his state of mind during the war, and reflects candidly on what he learned and how war has shaped his life since. In addition to Andre's personal story, this book reveals more about some of the other men who were distinguished operators in SAS operations during the Rhodesian War. "Andre was the best of the best and the bravest of the brave." —Capt. Darrell Watt, ex-SAS and subject of *A Handful of Hard Men*

During the West's great transition into the post-Colonial age, the country of Rhodesia refused to succumb quietly, and throughout the 1970s fought back almost alone against Communist-supported elements that it did not believe would deliver proper governance. During this long war many heroes emerged, but none more skillful and courageous than Captain Darrell Watt of the Rhodesian SAS, who placed himself at the tip of the spear in the deadly battle to resist the forces of Robert Mugabe and Joshua Nkomo. It is difficult to find another soldier's story to equal Watt's in terms of time spent on the field of battle and challenges faced. Even by the lofty standards of the SAS and Special Forces, one has to look far to find anyone who can match his record of resilience and valor in the face of such daunting odds and with resources so paltry. In the fight he showed himself to be a military maestro. A bush-lore genius, blessed with uncanny instincts and an unbridled determination to close with the enemy, he had no peers as a combat-tracker (and there was plenty of competition). But the Rhodesian theater was a fluid and volatile one in which he performed in almost every imaginable fighting role; as an airborne shock-trooper leading camp attacks, long range reconnaissance operator, covert urban operator, sniper, saboteur, seek-and-strike expert, and in the final stages as a key figure in mobilizing an allied army in neighboring Mozambique. After 12 years in the cauldron of war his cause slipped from beneath him, however, and Rhodesia gave way to Zimbabwe. When the guns went quiet Watt had won all his battles but lost the war. In this fascinating biography we learn that in his twilight years he is now concerned with saving wildlife on a continent where they are in continued danger, devoting himself to both the fauna and African people he has cared so deeply about.

There is nothing that terrorized Russian and Chinese-backed guerrillas fighting Rhodesia's bush war in the 1970s more than the famed Selous Scouts. The very name of the unit struck fear into the very heart and soul of even the most battle-hardened guerrillas. Too afraid to even whisper the name amongst themselves, they referred to soldiers of the unit simply as Skuzapu, or pickpockets. It was not for nothing that history has recorded the Selous Scouts Regiment as being one of the deadliest and most effective killing machines in modern counter-insurgency warfare.

This all-new work chronicles the experiences of Paul French who, upon leaving the British Army's 21 SAS (V), sought adventure and excitement in C Squadron of the Rhodesian SAS. Upon passing the arduous Rhodesian SAS selection course, Paul was thrown into the maelstrom that was the Rhodesian Bush War. Here he participated in the SAS's infamous raid on Joshua Nkomo and numerous other operations against insurgent / liberation forces. Passing selection for Ron Reid-Daly's elite counterinsurgency specialists, the Selous Scouts, the author took part in 'externals' against FRELIMO and 'attachments' with the Mozambique National Resistance. Paul continued to serve on operations with the Rhodesian SAS until the end of the 'Chimurenga' in 1980. Paul then went on to join the South African Defense Force's elite 6 Reconnaissance Commando. A career in private security followed, with a series of assignments in Angola, Iraq and Somalia. This impressive book pulls no punches. It gives a unique and predominantly black 'Ops K', which climaxed with one of the most vicious and determined infiltrations ever mounted by the communist-backed South West Africa People's Organization (SWAPO). Crossing regularly into Angola in pursuit of the insurgents, he saw friends die next to him and was twice wounded himself. This updated edition, drawing on the recollections and diaries of the men he rode with, will fascinate yet another generation of readers. In assembling this work, Jim Hooper had the opportunity to re-connect with so many of the men who allowed this outsider to ride with them. All of which brought a new intensity and poignancy. It also reminded Jim Hooper how privileged he was to have been witness to Koevoet's war. This stunning work is a tribute to Koevoet and the legend they created. "Hooper is a careful reporter, but also a born writer; his vivid word-pictures drag you in and hold you. He skillfully conveys his initially unwelcoming reception by an operational unit; the long, frustrating grind of search operations in punishing terrain and climate; the extraordinary bush skills of the Ovambo policemen; the shock of sudden contact, and its aftermath." Martin Window "Jim Hooper's account of South Africa's successful 'Ops K' in Namibia against South West Africa's People's Organization guerrillas should be required reading. The classic narrative is as timely today as it was twenty years ago." Charles D. Melson, Chief Historian, U.S. Marine Corps University. "This expanded edition is a skillfully woven mosaic of personal accounts from those involved and what he experienced during combat with Koevoet. The use of new material from those he rode with lays bare the realities of war, the fears and emotions that ebb and flow in the heat of combat, and the courage one finds to bring the battle to the enemy" Piet Nortje. Author of 32 Battalion "Koevoet describes in great detail the men, both black and white, and their mine-protected cross-country vehicles which were years ahead of anything in use by other western forces, the dedicated helicopter support units and the tactics used to bring an elusive guerrilla force to battle." Paul French, Author of Shadows of a Forgotten Past: To the Edge with the Rhodesian SAS and Selous Scouts.

Silver Cross recipient, Mike Borlace is considered to be one of the most experienced combat helicopter pilots of recent times. Now he collates his experiences in this compelling wartime memoir set against the backdrop of the civil war fought in Rhodesia during the 1970s.

Bandit Mentality captures Lindsay 'Kiwi' O'Brien's Bush War service from 1976-1980 at the coalface of the Rhodesian conflict. Starting in the BSA Police Support Unit, the police professional anti-terrorist battalion, he served across the country as a section leader and a troop commander before joining the UANC political armies as trainer and advisor. Much has been written about the Army's elite units, but Support Unit's war record was mainly unknown during the conflict, and has faded into obscurity afterwards. Support Unit started poorly supplied and equipped, but the caliber of the men, mostly African, was second-to-none. Support Unit specialized in the "grunt" work inside Rhodesia with none of the flamboyant helicopter or cross-border raids carried out by the army. O'Brien's war was primarily within selected tribal lands, seeking out and destroying terrorist units in brisk close range battles with little to no support. O'Brien moved from the police to working with the initial UANC deployment in the Zambezi Valley where the poorly trained recruits were delivered into the terrorist lair. They had to learn fast or die. O'Brien's account is a foreign-born perspective from a junior commander uninterested in promotion and the wrangling of upper command. He was decorated and wounded three times.

Koevoet! has been a global bestseller since its release over 20 years ago. This new edition goes far beyond the original in capturing the courage, fear and intensity of South Africa's deadly bush war. Never before had an outsider been given unrestricted access to Koevoet, the elite South West African Police counterinsurgency unit - also known as Operation K and officially as the South West Africa Police Counter Insurgency Unit (SWAPOL-COIN). Author Jim Hooper spent a total of five months embedded with the semi-secret and predominantly black 'Ops K', which climaxed with one of the most vicious and determined infiltrations ever mounted by the communist-backed South West Africa People's Organization (SWAPO). Crossing regularly into Angola in pursuit of the insurgents, he saw friends die next to him and was twice wounded himself. Fire Force is the account of Chris Cocks's service in 3 Commando, The Rhodesian Light Infantry (RLI), during Zimbabwe's civil war of the 1970s—a war that came to be known, almost innocuously, as 'the bush war'. Fire Force, a tactic of total airborne/airmobile envelopment, was developed by the RLI, and became the principal strike weapon of the beleaguered Rhodesian forces in their struggle against the tide of the communist-trained and -equipped ZANLA and ZIPRA guerrillas. "Like Reitz's work, *Commando: A Boer Journal of the Boer War*, *Fire Force*, by first-time author Chris Cocks, is a personal account of close-quarter warfare. It is a unique, compelling, sometimes brutal account of a young conscript's three years of service in the elite Rhodesian Light Infantry ... Cocks's work is one of the very few books which adequately describes the horrors of war in Africa ... *Fire Force* is the best book on the Rhodesian War that I have read." — Southern African Review of Books "Fire Force will be to the Rhodesian War what Remarque's *All Quiet on The Western Front* was to World War I. A high claim indeed, but perhaps valid, for this moving book is a classic in any sense." — *The Star* "The narrative is raw ... it gives the book a veracity so complete that it will transport anyone involved in the ordeal back across the years with the force of a body blow ... Rhodesia does at last have its own version of Michael Herr's Vietnam experiences, *Dispatches*. A sense of regret is what really lingers, that the whole nightmare had to happen at all. The list of names of boys killed, or scarred physically and mentally, is moving beyond mere words." — *The Financial Mail*
