This is an odd little book about a cat and mouse who only ever see each other from afar. Each of them wonders whether the other is a friend or a foe, but when each one gets the courage to go find out, they just end up switching places. The illustration are interesting, but unusual, and the story left me with an unsettled feeling.

What does it take to succeed? This question has fueled a long-running debate. Some have argued that humans are fundamentally competitive, and that pursuing self-interest is the best way to get ahead. Others claim that humans are born to cooperate and that we are most successful when we collaborate with others. In FRIEND AND FOE, researchers Galinsky and Schweitzer explain why this debate misses the mark. Rather than being hardwired to compete or cooperate, we have evolved to do both. In every relationship, from co-workers to friends to spouses to siblings we are both friends and foes. It is only by learning how to strike the right balance between these two forces that we can improve our long-term relationships and get more of what we want. Here, Galinsky and Schweitzer draw on original, cutting edge research from their own labs and from across the social sciences as well as vivid real-world examples to show how to maximize success in work and in life by deftly navigating the tension between cooperation and competition. They offer insights and advice ranging from: how to gain power and keep it, how to build trust and repair trust once it's broken, how to diffuse workplace conflict and bias, how to find the right comparisons to motivate us and make us happier, and how to succeed in negotiations – ensuring that we achieve our own goals and satisfy those of our counterparts. Along the way, they pose and offer surprising answers to a number of perplexing puzzles: when does too much talent undermine success; why can acting less competently gain you status and authority; where do many gender differences in the workplace really come from, how can you use deception to build trust, and why do you want to go last on American Idol and in many interview situations, but make the first offer when negotiating the sale of a new car. We perform at our very best when we hold cooperation and competition in the right balance. This book is a guide for navigating our social and professional worlds by learning when to cooperate as a friend and when to compete as a foe—and how to be better at both.

A lonely mouse gazes up at the cat in the palace tower next door. Determined to find out if he is a friend, he bravely makes his way into the palace ... "A lonely mouse lived in a small house beside a great palace. In the great palace lived a cat." Each night the mouse gazes up at the cat in the palace tower. Is the cat my friend? he wonders. Determined to find out, he bravely makes his way into the palace through a tiny hole and climbs all the way up to the tower, where the cat sits on the windowsill. "Hello, are you friend or foe?" he squeaks. This simple story by John Sobol has a surprising outcome, giving young readers a chance to draw their own conclusions. It is perfectly complemented by Dasha Tolsitkova's subtle yet striking illustrations. Coetzee reinvents the story of Robinson Crusoe—and in so doing, directs our attention to the seduction and tyranny of storytelling itself. J.M. Detective Simpson must navigate the seedy underworld to find a killer before more bodies start piling up. But first, he must fight off the demons of his past and decide where his loyalties lie—with the NYPD, or with the hood he grew up in. When former drug kingpin Keith "Big K" Turner is released from prison after serving sixteen years, things aren't as they once were. Not only has the neighborhood he once reigned over changed, his entire family has changed as well. When his wife, Desiree, is found murdered, all fingers point to Big K's enemies in the streets. But that may be just the way the killer wants it to seem. When Detective Brian Simpson, the newly dubbed "hood detective" takes the case, he sets out to find the killer just like with any other case. But Detective Simpson soon finds himself up against some of the hood's most dangerous people, some of whom he grew up with. With his loyalties being tested, Detective Simpson soon realizes that no matter how street smart he is, no one in the hood can be eliminated as a suspect in Desiree's murder. With a list of suspects that include a husband, a daughter, a son, and some of the most dangerous street enemies, Detective Simpson will have his work cut out for him. Will he survive, or will someone try to eliminate him before he gets too close to the truth?

Corey "Cee" Banks wasn't the average ghetto superstar. Unlike some of the other hustlers out there puttin' in work, he was satisfied with how his life of grindin' had turned out. He was kind and fair in the streets and a loving man in his home. Everyone in the hood respected him. Then someone crossed the line and Cee learned the hard way that it sometimes might be better to be feared than to be respected. When Cees girlfriend, Keisha, is killed in a botched robbery attempt, he realizes his kindness is being misconstrued for weakness. One unexpected tragedy leads to another as Cees life is turned upside down in a matter of days. With his mind made up to keep it moving, leaving his past behind, Cee sets out to make his last few moves, and in the process, fight the battle between deciphering whether those he encounters are Friend or Foe.
