JBL PB-10 not working properly. Around thanksgiving I got a new YAMAHA HTR-3066 receiver, and hooked up everything properly. I have an old JBL PB-10 which was in use on a separate sound system in the house and worked fine. However, when I hooked it up via LFE to the receiver's pre-out and played some music, the subwoofer did not behave right.

This book collects and discusses the Old Iranian divine names, personal names, geographical names (toponyms, hydronyms and oronyms) and loanwords, which are attested in texts written in Aramaic, Babylonian, Egyptian, Elamite, Lycian, Lydian and Phrygian. The texts, both royal inscriptions and documentary texts, are discovered in the entire territory of the Achaemenid Empire (from Egypt to Bactria), which controlled the Ancient Near East from ca. 550 to 331 B.C. The Iranica discussed in this book are divided into four categories: (1) directly transmitted Iranica, (2) semi-directly transmitted Iranica, (3) foreign Iranica and (4) indirectly transmitted Iranica (the so-called "Altiranische Nebenerlieferung"). All expressions, which do not belong to one of these categories, are brought together in a section called "Incerta". The etymology and linguistic setting of each Iranian expression is studied and a list of occurrences is added to this analysis.

DIY science projects using old tech to create new zombie tech—an eco-friendly, fantastic way to learn about today ' s technology. We all have a drawer or closet full of old discarded tech just sitting around, gathering dust. Memories of a bygone technological era that have been replaced by newer, shiner, smarter devices. What can you do with them? Most of us don ' t even know how to properly dispose of them. If only there was a way to save them from their untimely fate. Well empty out that drawer and grab a screwdriver because the time has come to bring these old devices back from the grave! Old technology may no longer be useful, but it isn ' t useless. Hidden inside often-discarded devices is a treasure trove of motors, magnets, screens, and other parts just waiting for a chance to be upcycled! And this type of " upcycling " doesn ' t mean turning an old CD into a coaster, it means something a little more hardcore, like . . . . How to make a great Wi-Fi security camera with an old cell phone . How to make a basic 3D printer out of old computer disk drives . What can be made with the rare-earth magnets inside old hard drives or the reusable LCD screens in old phones . And much more Fans of Popular Science, Smithsonian ' s Maker Lab, and The Big Book of Makerspace Projects will love Upcycled Technology.

Simone Weil, legendary French philosopher, political activist, and mystic, died in 1943 at a sanatorium in Kent, England, at the age of thirty-four. During her brief lifetime, Weil was a paradox of asceticism and reclusive introversion who also maintained a teaching career and an active participation in politics. In this concise biography, Palle Yourgrau outlines Weil ' s influential life and work and demonstrates how she tried to apply philosophy to everyday life. Born in Paris to a cultivated Jewish-French family, Weil excelled at philosophy, and her empathetic political conscience channeled itself into political engagement and activism on behalf of the working class. Yourgrau assesses Weil ' s controversial critique of Judaism as well as her radical re-imagining of Christianity—following a powerful religious experience in 1937—in light of Plato ' s philosophy as a bridge between human suffering and divine perfection. In Simone Weil, Yourgrau provides careful, concise readings of Weil ' s work while exploring how Weil has come to be seen as both a modern saint and a b ê te noir, a Jew accused of having abandoned her own people in their hour of greatest need.

Love in the African bush. Esther's Well, a BWWM Romance. Peter Ramsey, a British aid worker finds himself assigned to a special project far out in the Ugandan bush, a land trapped in the grasp of a crippling drought. Charged with managing a well drilling project he believes that he faces at most, 10 days of discomfort based in a rural village, but little does he know that the beautiful local girl assigned as his guide and translator may well change his life forever.

The Indian state of West Bengal is home to one of the world's most vibrant traditions of goddess worship. The year's biggest holidays are devoted to the goddesses Durga and Kali, with lavish rituals, decorated statues, fireworks, and parades. In *Offering Flowers, Feeding Skulls*, June McDaniel provides a broad, accessibly written overview of Bengali goddess worship. McDaniel identifies three major forms of goddess worship, and examines each through its myths, folklore, songs, rituals, sacred texts, and practitioners. In the folk/tribal strand, which is found in rural areas, local tribal goddesses are worshipped alongside Hindu goddesses, with an emphasis on possession, healing, and animism. The tantric/yogic strand focuses on ritual, meditation, and visualization as ways of experiencing the power of the goddess directly. The devotional or bhakti strand, which is the most popular form, involves the intense love and worship of a particular form of the goddess. McDaniel traces these strands through Bengali culture and explores how they are interwoven with each other as well as with other forms of Hinduism. She also

discusses how these practices have been reinterpreted in the West, where goddess worship has gained the values of sexual freedom and psychological healing, but lost its emphases on devotion and asceticism. *Offering Flowers, Feeding Skulls* takes the reader inside the lives of practicing Shaktas, including holy women, hymn singers, philosophers, visionaries, gurus, ascetics, healers, musicians, and businessmen, and offers vivid descriptions of their rituals, practices, and daily lives. Drawing on years of fieldwork and extensive research, McDaniel paints a rich, expansive portrait of this fascinating religious tradition.
