Ferment Your Vegetables for Flavor, Health, and Fun! Fermented vegetables are a great, healthy addition to anyone's diet. Abundant in probiotics, enzymes, vitamins, minerals, and more, research continues to reveal the many ways that these foods positively contribute to our well-being. From kimchi and sauerkraut to pickles and kvass, fermented foods have been part of the human diet for millennia--and are rightfully reclaiming their place at our daily table. The idea of fermenting vegetables at home can be intimidating for those who have never tried it before. The truth is, it's quite easy once you learn just a few basic concepts. In Ferment Your Vegetables, author Amanda Feifer, fermentation expert and founder of pickle.com, serves as your guide, showing you, step by step, how you can create traditional, delicious fermented food at home, using only simple ingredients and a little time. No fancy starters or elaborate equipment required. Using only veggies, a few spices, and a glass jar, here's just a small sampling of recipes you could start making today: -Zucchini Bread Pickles -Curried Cauliflower Pickles -Pint of Pickled Peppers -Simplest Sauerkraut -Ginger Beet Kraut -Green Bean Kimchi -Wild Fermented Tomato Sauce -Bullseye Beet Kvass Ferment Your Vegetables will make beginners wonder why they didn't start sooner, and give veteran fermenters loads of new ideas and techniques to try at home. All aboard the probiotic train!

We snap to attention when we hear about urban miracles: the designer jacket picked up for a pittance, the killer apartment snagged for next to nothing, swank furnishings found at garage-sale prices. Treasures like these in New York City--where it often seems the best things are reserved for the wealthy--can now be yours, thanks to New York Times House and Home reporter Tracie Rozhon, a bona fide expert on how to live the good life in Gotham. In The Cheapskate Millionaire's Guide to Bargain Hunting in the Big Apple, Rozhon shares her most closely held shopping secrets with the reader. She knows New York bargains inside and out, from the Lower East Side to suburban outlet stores, from estate sales to flea markets. Each chapter of her informative book concludes with an extensive listing of sources and services--complete with names, addresses, and phone numbers--and is loaded with great ideas on how you can find deals in clothes and jewelry (dream coats, designer labels, furs, diamonds, pearls) home furnishings (couches, chairs, rugs, draperies, fabrics, antiques, lamps, wallpaper) apartments, co-ops, and condos (buying and renting) home renovation (paint, lumber, hardware, bathroom fixtures, cabinets, appliances) food (gourmet groceries, caviar, coffee, wine, restaurant meals) nightlife (entertainment, clubs, bars) More than just a bargain hunter's guide, this book is a bargain hunter's dream. Tracie Rozhon shows you how to think like a cheapskate millionaire, so you can apply her shopping know-how to anything you hope to buy. You don't need to be a Rockefeller to grab what the Big Apple has to offer...but you do need this book's inspired advice.

This reference book is a complete guide to the trends and leading companies in the engineering, research, design, innovation and development business fields: those firms that are dominant in engineering-based design and development, as well leaders in technology-based research and development. We have included companies that are making significant investments in research and development via as many disciplines as possible, whether that research is being funded by internal investment, by fees received from clients or by fees collected from government agencies. In this carefully-researched volume, you'll get all of the data you need on the American Engineering & Research Industry, including: engineering market analysis, complete industry basics, trends, research trends, patents, intellectual property, funding, research and development data, growth companies, investments, emerging technologies, CAD, CAE, CAM, and more. The book also contains major statistical tables covering everything from total U.S. R&D expenditures to the total number of scientists working in various disciplines, to amount of U.S. government grants for research. In addition, you'll get expertly written profiles of nearly 400 top Engineering and Research firms - the largest, most successful corporations in all facets of Engineering and Research, all cross-indexed by location, size and type of business. These corporate profiles include contact names, addresses, Internet addresses, fax numbers, toll-free numbers, plus growth and hiring plans, finances, research, marketing, technology, acquisitions and much more. This book will put the entire Engineering and Research industry in your hands. Purchasers of either the book or PDF version can receive a free copy of the company profiles database on CD-ROM, enabling key word search and export of key information, addresses, phone numbers and executive names with titles for every company profiled.
