To compete with today's increasing globalization and rapidly evolving technologies, individuals and organizations must take their ability to learn—the foundation for continuous improvement, operational excellence, and innovation—to a much higher level. In *Learn or Die*, Edward D. Hess combines recent advances in neuroscience, psychology, behavioral economics, and education with key research on high-performance businesses to create an actionable blueprint for becoming a leading-edge learning organization. *Learn or Die* examines the process of learning from an individual and an organizational standpoint. From an individual perspective, the book discusses the cognitive, emotional, motivational, attitudinal, and behavioral factors

that promote better learning. Organizationally, *Learn or Die* focuses on the kinds of structures, culture, leadership, employee learning behaviors, and human resource policies that are necessary to create an environment that enables critical and innovative thinking, learning conversations, and collaboration. The volume also provides strategies to mitigate the reality that humans can be reflexive, lazy thinkers who seek confirmation of what they believe to be true and affirmation of their self-image. Exemplar learning organizations discussed include the secretive Bridgewater Associates, LP; Intuit, Inc.; United Parcel Service (UPS); W. L. Gore & Associates; and IDEO.

When a bad day at work culminates in losing out on a promotion, Jim Sanders shifts into his animal form to let off steam. Then his bad day turns into a bad night-while prowling his Atlantic City neighborhood

as a large gray house cat, he's caught in a torrential downpour. What little luck he has washes down the gutter when his new boss, Andrew Wright, catches him taking shelter on his porch, brings him inside, and starts calling him Mr. Frosty. As a feline, Jim becomes the inadvertent confessor for his boss's lonely son, Tony, a victim of schoolyard bullying. As a human, he feels drawn to Andrew, a man he wanted to resent. Finding love was never part of Jim's plan for the future-not with his bizarre secret-yet suddenly he finds himself navigating that minefield anyway. But not everything is easy, especially for an interracial gay couple dealing with prejudice in the workplace, at Tony's school, and even within their own families.

Gabby St. Claire is determined to get back in the saddle again. While in Oklahoma for a forensic conference, she meets her soon-to-be

stepbrother Trace Ryan, an up-and-coming country singer. Trace shares that a woman he was dating went missing a month ago, and he suspects a crazy fan girl may be behind her disappearance. Gabby can't pass up the opportunity to investigate. But her schedule is tricky as she tries to juggle her conference, navigate being alone in a new place, and locate a woman who may not want to be found. She discovers that sometimes taking life by the horns means staring danger in the face, no matter the consequences.

subject chapters corresponding with those in General and Systematic Pathology, a complementary text. However, full explanatory answers are supplied so that this book may be used with any pathology textbook. The questions take the form of a stem with five branches which must be marked true or false. This is the most commonly used system of questions in British medical schools and is usually scored as +1 for a correct response and zero for no response.

Darcy Sweet would like to think that she is just an ordinary woman, happy in her life running the Sweet Read bookstore. But she isn't ordinary. She has a connection to the other side that seems to draw her into mysterious situations more often than not. Add to the mix the antics of a rather naughty, slightly psychic cat and the eccentric ghost of her great-aunt Millie, and you have a recipe for anything but the

ordinary. When Darcy's neighbor is murdered she is drawn into the mystery against her will when she finds the body. She tries to leave the investigation to the police, one of which is her sister, but an overheard conversation and a small nudge from the other side has her investigating the murder. The stakes are raised when the murderer strikes again. Who was killing the people in her life? Things are complicated even more by her building attraction to her sister's new cop partner, who makes it clear he does not appreciate Darcy's interference in the investigation. Sparks fly between the two of them as they get further into the mystery surrounding the deaths. With a town full of suspects how will Darcy work out who the murderer is? None of the pieces to the puzzle fit. Things become more complicated and dangerous as Darcy's own life is threatened. Will she survive to see justice served?
