In *Reading for Preaching* Cornelius Plantinga makes a striking claim: preachers who read widely will most likely become better preachers. Plantinga -- himself a master preacher -- shows how a wide reading program can benefit preachers. First, he says, good reading generates delight, and the preacher who enters the world of delight goes with God. Good reading can also help tune the preacher's ear for language -- his or her primary tool. General reading can enlarge the preacher's sympathies for people and situations that she or he had previously known nothing about. And, above all, the preacher who reads widely has the chance to become wise. This beautifully written book will benefit not just preachers but anyone interested in the wisdom to be derived from reading. Works that

One of the central tasks of pastoral ministry is preaching the Word of God. Yet those who are called to ministry may feel unprepared, unable, or unwilling to step into this role. In this brief introduction to homiletics, seasoned preacher Matthew

Preachers communicate God's word by fully considering their context and their congregation. Preaching by the Book is a practical handbook offering fundamental guidance for preachers beginning to explore their gifts, and fresh insights for seasoned veterans desiring to refine their craft. R. Scott Pace challenges preachers to develop their style and their substance by considering their unique personality and gifts, the work of the Spirit, and the particular audience on a given occasion.

interpersonal communications skills can be of considerable value for those called to preach God's word. "Dr. Sowards has made rather elegant use of the model of interpersonal communication as a device to explore preaching and communicating with congregants." – Dr. Dalton Kehoe, Senior Scholar, Communication Studies, York University, Toronto, Canada

"Sowards' book advances the idea of conversational preaching beyond the merely metaphorical by applying practical insights from Interpersonal Communications Theory to the act of sermon crafting." – The Rev. Dr. Micah Jackson, Ph.D., Bishop John Elbridge Hines Associate Professor of Preaching and Director of Comprehensive Wellness, Seminary of the Southwest, in Austin, Texas This book is for preachers and students of preaching who want to become better preachers and communicators. have explored the theories of interpersonal communication and shown how preachers can benefit from such knowledge. I described the concept of noise as an impediment to communications and explored the topic with regard to politics, beliefs about the poor, past religious experiences and having an underdeveloped faith. I examined the concept of feedback and how effective feedback can be fodder for future sermons. I developed a model for conversational preaching using interpersonal communications theory and state that the ultimate goal of any sermon would be to facilitate a conversation with the hearers of a sermon and God.

helpful? Do you feel he spends enough time with you? In fact, do you ever catch yourself wondering what he does all day? The truth is, often we think, "What can my pastor do for me?" Far less often do we think, "What can I do for my pastor?" Seasoned former pastor, Christopher Ash, urges church members to think about pastors not just in terms of what they do €“ how they lead and pray and preach and teach and so on €“ but about who they are. He encourages us to remember that pastors are people and to pray for them as they serve us. Paradoxically, caring for our pastor will be a blessing to us as well as to them, and create a culture of true fellowship in our church family.

Timothy Keller is known for his insightful, down-to-earth sermons and talks that help people understand themselves, encounter Jesus, and apply the Bible to their lives. In this accessible guide for pastors and laypeople alike, Keller helps readers learn to present the Christian message of grace in a more engaging, passionate, and compassionate way.

Renowned preachers and teachers, such as James Boice, Joel Nederhood, Sinclair Ferguson, and R. C. Sproul, contribute to this volume on the preacher, his message, and method of presentation.

Faithful Sermon, Karoline M. Lewis provides lay preachers with an essential and accessible guide to the basics of Sunday morning preaching. Laypeople are increasingly called to serve congregations and are preaching regularly. But often they do not have immediate, reliable, or trusted access to homiletical instruction or support for their preaching. As a result, these church leaders--feeling called to ministry and to preach, and affirmed by denominational leaders to do so--are left on their own to figure out how to preach. In *A Lay Preacher's Guide*, Lewis gives this unique subset of preachers the foundations of biblical preaching, so they can preach faithfully in their unique contexts. She lays out in a concise and clear format the steps to preaching a faithful sermon, a process that can be immediately applied to weekly sermon preparation. This book is a go-to resource

for faithful preaching.

Preaching today all too often tragically misses the point. We've all heard sermons that sound more like a lecture, filling the head but not the heart. And we've all heard sermons tailored to produce an emotional experience, filling the heart but not the head. But biblical preaching both informs minds and engages hearts—giving it the power to transform lives. By the Spirit's grace, biblical preaching brings truth home from the heart of the preacher to the heart of the hearer. Joel Beeke—a pastor and professor of preaching with over four decades of experience—explores the fundamental principles of Reformed experiential preaching, examining sermons by preachers from the past and bridging the historical gap by showing pastors what the preaching of God's life-transforming
