ITC 32 solicits original contributions that address the latest changes and developments in design, modelling, measurement, and performance evaluation of communication systems, networks, and services

The famous 1962 Port Huron Statement by the Students for a Democratic Society (SDS) introduced the concept of participatory democracy to popular discourse and practice. In Inspiring Participatory Democracy Tom Hayden, one of the principal architects of the statement, analyses its historical impact and relevance to today's movements. Inspiring Participatory Democracy includes the full transcript of the Port Huron statment and shows how it played an important role in the movements for black civil rights, against the Vietnam war and for the Freedom of Information Act. Published during the year of Port Huron's 50th anniversary, Inspiring Participatory Democracy will be of great interest to readers interested in social history, politics and social activism.
