"The Washington Manual Subspecialty Consult Series is designed to provide quick access to the essential information needed to evaluate a patient on a subspecialty consult service - each manual has been completely reviewed, revised, and follows the format and template of The Washington Manual of Medical Therapeutics, 33/e. We believe the revised outline format will provide information in a more logical and readily accessible format. The content has been updated to reflect advancing technologies and therapeutics. The objective is for the reader to obtain a synopsis of symptoms, signs, and problems encountered in their daily workflow in a bulleted format for quick salient points. References to a more descriptive source have been provided, along with a second color to support quick access, and web resources for physicians and patients"--Provided by publisher.

The Washington Manual of Nephrology Subspecialty Consult has been thoroughly updated and covers inpatient and outpatient management of nephrology with the same clinical practicality as the widely-popular Washington Manual of Medical Therapeutics. It has been written by the residents, fellows, and attending physicians of the distinguished Washington University School of Medicine and is tailored for residents performing inpatient consults, students working on an inpatient medicine service, and specialists seeking fast-access information on the management of common renal diseases. Organized for quick and easy access to information, this handbook includes sections on general approaches to kidney disease, electrolyte and acid-base disorders, acute kidney injury and continuous renal replacement, causes of kidney disease, pregnancy and nephrolithiasis, and chronic kidney disease. Appendices include dosing adjustments for antimicrobials and antiretrovirals and a listing of red flag drugs that may cause renal impairment. Don't miss the other key topics in The Washington Manual Subspecialty Consult Series: - Allergy, Asthma, and Immunology - Gastroenterology - Hematology and Oncology - Infectious Disease - Rheumatology The Washington Manual is a registered mark belonging to Washington University in St. Louis to which international legal protection applies.
